1. Executive Summary

MedFlow Transcribe AI is an AI-assisted medical transcription operations platform designed for white-label distribution to transcription service organizations (TSOs), healthcare BPOs, hospitals, and health systems worldwide. This document defines the complete monetization framework — pricing models, licensing terms, revenue-sharing schemes, and go-to-market positioning — optimized for international market expansion.

The global medical transcription market is valued at approximately **$70 billion USD** (2026 estimate) and is growing at a CAGR of 5.8% driven by the shift from on-premise dictation systems to cloud-based, AI-assisted transcription platforms. The market is highly fragmented — the top 10 TSOs hold less than 25% market share — creating a significant opportunity for a white-labeled platform that enables regional and specialty-specific BPOs to compete with modern AI capabilities without building their own technology stack.

MedFlow's monetization strategy is built on **seven complementary revenue streams**: (1) SaaS subscription tiers, (2) usage-based metering (audio minutes + AI processing), (3) white-label licensing fees, (4) revenue-sharing partner program, (5) professional services + implementation, (6) add-on module marketplace, and (7) API access for enterprise integrators. This multi-stream approach maximizes revenue per customer while accommodating clients of all sizes — from solo transcriptionists to multi-national health systems.

2. Monetization Models Overview

MedFlow supports seven distinct monetization models that can be combined per-client. Each model targets a different buyer persona and budget structure, enabling partners to flexibly package the platform for their specific market.

#	MODEL	DESCRIPTION	TARGET BUYER	REVENUE MIX	MARGIN
1	**SaaS Subscription**	Tiered monthly/annual plans with included minutes + seats	Clinics, TSOs, BPOs	60%	82%
2	**Usage-Based Metering**	Per-audio-minute + per-AI-agent-run beyond plan limits	All tiers	25%	85%
3	**White-Label Licensing**	One-time setup + annual license for branded instance	BPOs, Regional partners	5%	90%
4	**Revenue-Sharing Partner**	15-30% revenue share on subscription + usage	Resellers, channel partners	—	—
5	**Professional Services**	Implementation, training, custom integrations, EHR onboarding	Hospitals, health systems	7%	45%
6	**Add-On Module Marketplace**	Specialty packs, compliance modules, analytics add-ons	All tiers	2%	88%
7	**API Access (Developer Tier)**	Per-call or bulk API access for integrators	EHR vendors, research	1%	92%

2.1 Model Selection Matrix

Partners and clients can select the model that best fits their business structure. Models are combinable — a hospital might use SaaS Subscription + Professional Services + Add-On Modules, while a BPO might use White-Label Licensing + Revenue Sharing + Usage Metering.

Subscription-First DEFAULT

Best for clinics + mid-size TSOs. Predictable monthly revenue. Includes base minutes + seats. Overage billed at usage rates.

Usage-First BPO

Best for offshore BPOs with variable volume. No minimum commitment. Pay per audio minute + per AI run. Volume discounts apply.

License-First ENTERPRISE

Best for large BPOs + health systems. One-time license + annual maintenance. Self-hosted or dedicated cloud. Includes white-label branding.

3. SaaS Subscription Tiers

Three tiers priced for progressive scaling. All prices in **USD**. Annual billing receives a **2 months free** discount (pay 10 months). All tiers include the core AI transcription pipeline, RBAC, audit logging, and FHIR export.

4. Usage-Based Metering

Usage-based pricing captures revenue from variable-volume clients (offshore BPOs, seasonal health systems) and from overage beyond subscription plan limits. All meters are tracked in real-time with monthly invoicing via Stripe Billing.

4.1 Metered Usage Rates

METER	UNIT	STARTER RATE	PROFESSIONAL RATE	ENTERPRISE RATE	VOLUME DISCOUNT (10K+)
Audio transcription	per audio minute	**$0.45**	**$0.28**	**$0.18**	**$0.12**

4.2 Usage Cost Calculator (Example Client)

A mid-size TSO on the Professional tier ($499/mo) with 6,500 audio minutes (1,500 overage), 30 entity extractions, 20 hallucination checks, and 50 FHIR exports:

$499
BASE SUBSCRIPTION

$420
AUDIO OVERAGE (1,500 × $0.28)

$2.50
AI RUNS + ENTITIES

Total Monthly: ~$922 \cdot Annual$ **: 11,064**

> **Prepaid Usage Credits**
> Clients can prepay for usage credits at a 10% discount. Credits never expire. Minimum prepay: $500. This improves cash flow + reduces monthly invoice friction for high-volume BPOs.

4.3 Volume Discount Tiers

MONTHLY VOLUME	AUDIO MIN DISCOUNT	AI RUN DISCOUNT	CREDIT VALIDITY
0 – 5,000 min	Base rate	Base rate	—
5,001 – 10,000 min	10% off	5% off	12 months

25,001 – 50,000 min	30% off	25% off	18 months
50,001+ min	40% off (custom)	35% off	24 months

5. White-Label Licensing Model

The white-label licensing model enables regional BPO operators, health-system IT departments, and channel partners to operate MedFlow under their own brand — with custom domain, logo, colors, and pricing — while MedFlow handles the underlying platform, AI agents, and infrastructure.

5.1 Licensing Tiers

LICENSE TIER	ONE-TIME SETUP	ANNUAL LICENSE	REVENUE SHARE	TARGET PARTNER	KEY FEATURES
Silver Partner	**$5,000**	**$12,000/yr**	20% of subscription + usage	Small regional TSO	Logo + colors + custom domain; up to 50 end-clients; shared cloud
Gold Partner	**$15,000**	**$36,000/yr**	15% of subscription + usage	Mid-size BPO or health system	Full branding + custom templates; up to 250 end-clients; dedicated namespace; partner admin console
Platinum Partner	**$50,000**	**$96,000/yr**	10% of subscription + usage	Large BPO, national chain	Full white-label + custom modules; unlimited end-clients; dedicated multi-region cloud; on-prem option; 24/7 support
Exclusive Reseller	**$100,000**	**$180,000/yr**	5% of subscription + usage	National/regional exclusive distributor	Exclusive territory rights; co-branded marketing; deal registration; dedicated account team; source-code escrow

5.2 What's Included in White-Label

Branding & Customization

- Custom logo, color palette, fonts
- Custom domain (e.g., portal.partnername.com)
- White-labeled email notifications
- Custom login page + SSO branding
- Partner-controlled pricing + plans
- Custom document templates
- Partner-branded patient portal
- Custom report headers + footers

Operational Independence

- Partner admin console (manage end-clients)
- Partner-controlled user provisioning
- Partner-set SLA policies
- Partner-managed billing (or MedFlow-billed)
- Partner analytics + revenue dashboards
- Custom integrations per end-client
- Data residency controls
- Co-branded training materials

5.3 Revenue-Share Partner Program

The revenue-share program enables channel partners (EHR vendors, consulting firms, regional distributors) to refer clients to MedFlow and earn recurring commission on subscription + usage revenue for the lifetime of the client.

PARTNER LEVEL	ANNUAL QUALIFIED DEALS	REVENUE SHARE	DEAL REGISTRATION	CO-SELL SUPPORT
Registered	1-5	15%	90-day protection	Marketing kit
Silver	6-15	20%	120-day protection	+ Co-branded collateral
Gold	16-40	25%	180-day protection	+ Dedicated PAM + lead sharing
Platinum	41+	30%	365-day protection	+ Executive sponsor + joint roadmap

Lifetime Commission

Revenue share is paid monthly for the lifetime of the client relationship — not just the first year. A partner who refers a $499/mo Professional — tier client earns $1,197/yr (20%) every year the client remains active. At 50 active referrals, that's $59,850/yr in passive recurring revenue.

6. Professional Services & Implementation

Professional services capture revenue from onboarding, custom integrations, and ongoing optimization. These are one-time or project-based fees billed separately from the SaaS subscription.

SERVICE	DESCRIPTION	FEE (USD)	DURATION	DELIVERABLES
Starter Onboarding	Basic setup for Starter/Pro tiers	**$2,500**	1 week	Org setup, 1 facility, 5 users trained, templates configured
Professional Onboarding	Full onboarding for multi-facility clients	**$8,000**	3 weeks	Multi-facility, custom templates, EHR integration, 25 users trained, SLA policies
Enterprise Implementation	Full deployment for hospitals/health systems	$25,000–**75,000**	6-12 weeks	Dedicated env, SSO, custom integrations, CSV validation, change management, 100+ users trained
EHR Integration Pack	FHIR/HL7/Direct integration with a specific EHR	$5,000–**20,000**	2-6 weeks	Epic/Cerner/Allscripts/Athena integration, testing, go-live support
Custom Template Builder	Custom clinical document templates per specialty	**$1,500/template**	1 week	Custom sections, abbreviations, formatting rules, validation
HIPAA/ISO 13485 Validation	Computer system validation (IQ/OQ/PQ) for regulated clients	$10,000–**30,000**	4-8 weeks	Validation protocols, traceability matrix, summary report, e-signatures
Custom AI Model Training	Fine-tune transcription/QA for a client's specialty	$15,000–**50,000**	4-12 weeks	Custom model, training data prep, evaluation, deployment, monitoring
White-Label Branding Pack	Full white-label customization	$3,000–**10,000**	1-3 weeks	Logo, colors, domain, templates, email branding, training materials
Annual Optimization Review	Quarterly business review + optimization	**$4,000/yr**	Ongoing	QBR, SLA analysis, template optimization, AI tuning, roadmap
Training & Certification	Role-based training + competency certification	**$150/user**	2 days	On-site or virtual, role-specific curriculum, assessment, certificate

7. Add-On Module Marketplace

Modular add-ons enable clients to purchase only the features they need. Add-ons are billed monthly alongside the subscription. Partners can develop + publish their own add-ons (70/30 revenue split).

Radiology Module

DICOM integration, structured radiology reporting (ACR BI-RADS, LI-RADS, PI-RADS), voice-activated template filling.

$199/mo

Pathology Module

Structured pathology reports (CAP cancer protocols), synoptic reporting, gross + microscopic dictation templates.

$199/mo

Continuous Compliance Module

Live control monitoring, 1-click audit pack, HIPAA SRA tool, DPIA workflow, vendor risk management.

11. Go-To-Market Strategy

11.1 Channels

Direct Sales (PLG + Sales-Assisted)

- Self-serve signup for Starter tier (PLG funnel)
- Inbound demo requests → SDR qualification → AE close
- Free 14-day trial with 100 audio minutes included
- Content marketing (HIPAA/SEO blog, FHIR guides)
- Target: 60% of Year 1 pipeline

Channel Partner Program

- EHR vendor partnerships (Epic App Orchard, Cerner code)
- Regional BPO distributor agreements
- Consulting firm referrals (Deloitte, Accenture, Slalom)
- HIMSS/HLTH conference presence
- Target: 25% of Year 1 pipeline

Strategic Alliances

- Cloud marketplace listings (AWS, Azure, GCP)
- HIMSS/CHIME corporate member
- DirectTrust + Carequality participation
- ISO/HITRUST certification body partnerships
- Target: 10% of Year 1 pipeline

OEM / Embedded

- EHR-embedded transcription (Epic Workstation, Cerner Millennium)
- Telehealth platform embedded transcription
- RIS/PACS embedded radiology reporting
- Revenue share + OEM license
- Target: 5% of Year 1 pipeline

11.2 Competitive Positioning

COMPETITOR	PRICING	MEDFLOW ADVANTAGE
M*Modal (3M)	Enterprise only, $100K+	SMB-friendly tiers + AI-native + modern API
Nuance DAX	$3K–5K/provider/yr	BPO-friendly + white-label + offshore model + open FHIR
